

To keep the SAMLARC Community current, while maintaining property values, the Board of Directors established a program to update the residential paint palettes. The final result is a blend of new and existing schemes that are consistent with similar communities in Southern California and Orange County. The process was extensive and included a review period for comment by the membership and sub-maintenance corporation Board of Directors.

After careful consideration of all comments received by the SAMLARC Membership, the Board of Directors adopted the 2018 Updated Residential Village Paint Program, at their regular meeting held Tuesday, April 24, 2018. These new color schemes are available to view online, at the Beach Club, in the SAMLARC Business Office and at the local Dunn Edwards Paint store. SAMLARC Members are subject to the requirements of the CC&R's.

Homeowners must obtain approval from their sub-maintenance corporation first (if applicable) and then the SAMLARC Architectural Review Committee, prior to beginning any painting project.

### **Steps to Select Paint Colors**

1. To determine which paint village is assigned to your development, check the [SAMLARC Street List](#) for your street name. The street list is included later in this document.
2. Visit the Dunn-Edwards website or contact a representative at the SAMLARC Business Office to view the SAMLARC Paint Village Colors for your community. Click the links below to view the palette for your community! These links will open a web page in your internet browser.

- [The Arroyos](#)
- [Golf Course Village](#)
- [Mira Vista](#)
- [Town Center](#)
- [The Vistas](#)
- [Village I - Eastlake](#)
- [Village I - Ranchwood](#)
- [Village II - Heights](#)
- [Los Abanicos](#)

3. Submit your color scheme choice, along with the appropriate forms on the SAMLARC Portal for review.

Dunn - Edwards  
30102 Santa Margarita Pkwy A  
Rancho Santa Margarita, CA 92688

Exterior Painting The term "building's exterior" as used in the following guideline shall include but not limited to; all structures such as pool buildings, single family detached dwellings, attached dwellings, condominiums and apartment buildings.

Owners who choose Color Options within their approved Paint Village can receive "over-the-counter" approval. In order to obtain this "over-the-counter" approval, Owners must:

- a. Select pre-approved colors that are intended for the elements of the home  
(Example: Choosing Stucco colors for Stucco, Garage Door colors for Garage Doors, etc.)
- b. Select at least three different colors to be used on the unit within the Paint Scheme for the Paint Village, when the majority of the home is being painted.
- c. Select colors that do not result in a mono-chromatic aesthetic.

### **Residential Village Paint Program Policies**

- a. Color Schemes are sets of complementary colors approved for use on the various elements of a residence. Each Village has several Color Schemes approved for use within the Village.
- b. Some of the Subordinate Maintenance Corporations have established a uniform aesthetic appearance with colors for specific features. For example, some condominiums, attached homes and apartment buildings have adopted a uniform color for the front door. Existing Color Schemes which preserve a uniform aesthetic appearance may be approved, unless specifically eliminated.
- c. Colors shall not be intermixed from one Paint Village to another Paint Village.
- d. To encourage diversity of colors within the approved Color Schemes for each Village, single family detached dwellings that are adjacent to each other or share a property line may not be painted exactly the same Main Body Stucco color.
- e. It is preferred that all duplex, triplex, fourplex, or multi-family buildings, having one or more common walls adjoining to another home, be painted a single paint Color Scheme approved by the SAMLARC ARC. When one owner within the duplex, triplex, fourplex or multi-family buildings desires to change paint colors from an existing Color Scheme to a new approved Color Scheme, all unit owners within the attached structure must receive notice of the proposed color scheme. If all unit owners within the attached structure do not agree to the new paint Color Scheme, or to paint at the same time, then the ARC will consider approval of the requesting owners paint submittal application on a case-by-case basis. Approval to paint a different Color Scheme than an adjacent connected unit will be based on strict adherence to one of the approved Color Schemes, the aesthetics of the two Color Scheme's side by side, color coordinating common elements and a review of the reasons why the two adjacent owners do not agree to the Color Scheme or timing of painting together.
- f. Paint Submittals that deviate from the established paint element options and /or do not include the entire unit require approval by the ARC prior to commencement of painting.
- g. Painting must be completed within one year of the receipt of ARC approval.
- h. SAMLARC Completion Notice form must be submitted for review to the ARC within 30 days of completion.
- i. Pre-fabricated, pre-painted roll-up garage doors will be considered on a case-by-case basis only.
- j. Subordinate Maintenance Corporations may and can have stricter rules. For example: A Subordinate Maintenance Corporation may set a Color Scheme and NOT allow intermixing of colors.
- k. Condominium Owners must check with their property manager for painting responsibilities, details and schedules.
